

Communications Intern (Six months, Full-time)

We are looking for a suitable candidate to join the team in creating impact and long-term value for our organisation, the companies we invest in, and the communities we work with. We welcome a strong team player to be part of a collaborative team culture that values curiosity, candour, and contrarian thinking.

Internship Objectives

1. Stimulate interest in communicating life sciences
2. Encourage a communications career in an R&D environment
3. Provide hands-on job training (e.g., copywriting, graphic design, social media management)
4. Create opportunities to meet and exchange with a wider marketing community

What to Expect

1. Applications of digital marketing for TLA and TLL corporate brand; ad hoc for spin-off companies
2. Marketing execution of communications plans e.g., social media content management, media liaison
3. Nuances for institutional brand management strategies and execution
4. Hands-on experience in a dynamic start-up environment

Internship Duration

1. Full-time, July – December 2022 (6 months), monthly stipend provided.

Profile Required

- Pursuing degree in mass communications or related field. Students in final or penultimate year.
- Working knowledge of publicity, marketing and communications.
- Strong interest in community and public engagement.
- Some educational background in biology.

Selection Criteria

Application should include all of the following to be considered

- In 300 words, describe what life sciences mean to you.
- In 300 words, describe your career interests and aspirations.
- Have you participated in business-related competitions, internships and project work? Elaborate.
- Please provide writing samples, design portfolio, film records, where applicable.

Interested applicants may write in to hr@tla.com.sg.

About Temasek Lifesciences Accelerator (“TLA”)

Established in 2016, Temasek Lifesciences Accelerator (TLA) is the first private Singapore-based biotech and agri-tech incubator that aims to nurture and grow disruptive life science innovations into early-stage companies with the vision of becoming tomorrow’s champion.

A joint venture between Temasek Life Sciences Laboratory and Vertex Holdings, TLA’s distinctive differentiation lies in its unique sectoral focus in Agri-Food Technology, Industrial & Synthetic Biology, as well as Human & Veterinary Sciences.

With the aim to incubate, nurture and grow life sciences innovations into early-stage companies within its go-to life sciences incubator, TLA has the scientific infrastructure for rapid test bedding, as well as experienced mentors to help start-ups succeed in Asia. TLA is also a licensed venture capital fund manager that has the capacity to make pre-seed, seed and series A investments through The Life Sciences Innovation Fund (TLIF).
