

Fabrication Technician (Full-time)

Temasek Lifesciences Accelerator (TLA) is hiring a Fabrication Technician for one of our portfolio companies – Aqualita Ecotechnology.

Aqualita Ecotechnology is a spin-off company from Temasek Life Sciences Laboratory which has developed a ground-breaking urban Recirculating Aquaculture System (RAS) technology that is scalable, modular, and versatile for fish farming. We are seeking a motivated individual who is enthusiastic about making a positive impact on the community and eager to contribute to an early-stage company in achieving Singapore's "30 by 30" food security goal.

Job Responsibilities

- Cut and prepare plastic materials for fabrication
- Provide technical expertise in areas of plastic hot air/extrusion welding, installations of PVC pipes and fittings
- Setup electrical and electronic devices (both AC and DC devices)

Profile Required

- Has experience in processing plastic materials prior to welding
- Competent in using cutting/drilling tools, including rotary/sliding/jig/table saw
- Competent in plastic welding using hotair welder and/or extrusion welder
- Competent in PVC pipe and fittings installation
- Able to follow pipe routing drawings
- Strong communication skills with an attention to details
- Demonstrates initiative and enjoys working in a fast paced, dynamic and entrepreneurial organisation

Interested applicants may send resume to careers@aqualitaeco.com.
