

Analyst (Full-time)

Opportunity

We are looking for a suitable candidate to join the team in creating impact and long-term value for our organisation, the companies we invest in, and the communities we work with. We welcome a strong team player to be part of a collaborative team culture that values curiosity, candour, and contrarian thinking.

Responsibilities

The candidate will have the opportunity to work across three functions:

Competitive Intelligence

- Conduct industry research and analysis. Develop an understanding of secular trends and structural changes, as well as the impact on the life sciences sectors we focus on.
- Play an active role in generating ideas, building investment theses, financial modelling, capital raising, documentation and execution.
- Structure, prepare and deliver presentations and strategic plans. Assist with special projects (i.e., business development, investor relations, internal processes) on an as-needed basis.

Investment

- Evaluate investment opportunities, perform due diligence and undertake portfolio management.
- Assess potential investible targets in the Pre-Seed to Series A stages.

Project Management

- Recruit promising start-ups and assist in managing TLA's incubator and accelerator programs.
- Facilitate the commercialization of technology.
- Assist in planning and overseeing commercial projects, inclusive of the preparation of periodic updates of the project status and other related progress reports.

Profile Required

- Creative thinker with an interest in problem-solving and developing new ideas, but also analytical and practical.
- Strong quantitative, communication and writing skills, with an attention to details.
- Able to balance multiple concurrent projects and shift attention among changing tasks and priorities.
- Demonstrates initiative and enjoys working in a fast paced, dynamic and entrepreneurial organisation.

Qualifications

- Bachelor's degree in life sciences, business or related fields, with a record of strong academic achievement.
- Background in biological science or biomedical engineering preferable.
- Fresh graduates are welcome to apply.

Interested applicants may submit their resumes to hr@tla.com.sg.

About Temasek Lifesciences Accelerator (“TLA”)

Established in 2016, Temasek Lifesciences Accelerator (TLA) is the first private Singapore-based biotech and agri-tech incubator that aims to nurture and grow disruptive life science innovations into early-stage companies with the vision of becoming tomorrow's champion.

A joint venture between Temasek Life Sciences Laboratory and Vertex Holdings, TLA's distinctive differentiation lies in its unique sectoral focus in Agri-Food Technology, Industrial & Synthetic Biology, as well as Human & Veterinary Sciences.

With the aim to incubate, nurture and grow life sciences innovations into early-stage companies within its go-to life sciences incubator, TLA has the scientific infrastructure for rapid test bedding, as well as experienced mentors to help start-ups succeed in Asia. TLA is also a licensed venture capital fund manager that has the capacity to make pre-seed, seed and series A investments through The Life Sciences Innovation Fund (TLIF).
